**Message Body:**  
Hello,

I am looking to invest in Ripple. However, all of the exchanges require a very stringent verification process. Some of which I am not accustomed to here in America. That said, do you have any respected exchanges that you can request to invest into XRP that will not comprise my identity. I was going to use Kraken however, they seem to be unreliable lately. Do you know of any exchanges that sell XRP and are not intrusive on identity?
